

YALE AVIATION NEWSLETTER

June 2022

UPCOMING EVENTS

- **Airport Picnic - Meriden-Markham Municipal Airport (KMMK)** - Welcome Back to MMK picnic for tenants, family, friends and outside pilots! SAVE THE DATE for June 18th beginning at 1PM and running throughout the afternoon.
- **NEAM (New England Air Museum)** is hosting the conclusion of an antique car race on **Saturday, June 18, noon to 4:30 pm.** Come join the Block Party! For more information: <https://neam.org/pages/the-great-race>
- The 2nd Annual **Goodspeed Fly-In**, planned for **the weekend of Friday, June 24th, to Sunday, June 26th, 2022**, will be bigger and better than the first installment, with lots of community for young people in aviation and other entertainment. For more information on this free event, visit <https://www.youngpilots.org/42bflyin>
- **Niagara Falls Flyout** – late summer/early fall. See details below.

PILOTS...

Welcome to Nick Hadley who rejoins Yale Aviation while his airplane is being worked on. He started flying in 1970. He was a Yale undergraduate and then joined Yale Aviation as a faculty member in the 1980s. After 30 years as a Physics Professor at the University of Maryland, he returned to the New Haven area and is pleased to be an active member of the Club again.

Congratulations to affiliate member and YA CFI **Mirai Hashimoto Mikula** and her husband Mike, who welcomed Emily into their family on May 13th. Grandpa **Akihiro Hashimoto** is completely starry-eyed!

Well done to **David Willmore**, who flew to South Carolina to take his instrument checkride on June 13! (Well, he had a wedding also...). Congratulations!!

Fly-Out to Niagara Falls

Niagara Falls International (KIAG) Niagara Falls, NY

Roundtrip KHVN - KIAG

The Plan:

● Saturday

- Both airplanes depart KHVN with at least two current pilots on board. Ideally, one current instrument-rated pilot in each airplane.
- Fuel stop at KBGM (Binghamton, NY)
- Depart KBGM ; arrive KIAG
- Sightsee, dinner and hotel

● Sunday

- Full day of sightseeing
- Depart KIAG early evening (*all pilots need to be night current*)
- Fuel stop at KBGM (Binghamton, NY)
- Fly direct - Hudson River Exclusion
- Arrive KHVN late evening Sunday.

Contact Joel D'Angelo (dangelojoel@gmail.com) if interested. Exact dates TBD!

Notices to our aviators:

- We will need to determine what we will be doing with N32028 in 2022, as it will also need a new engine within the next year or so. Anyone interested in contributing to our conversation about keeping or changing out the trainer should contact **Joel D'Angelo (dangelojoel@gmail.com)**.
- **Dan Macdonald** (cell: 203-788-6320) will be working with **Charlie Skelton** as the primary point of contact for airplane maintenance issues. A Maintenance Committee has been formed that consists of **Dan, Joel D'Angelo, Akihiro Hashimoto** and **Jake White**, who will work together to resolve issues with the airplanes. **Please text Dan if you note something amiss – no discrepancy is too small!**

If you note a discrepancy with one of our aircraft please be sure to complete this three-step process:

1. Enter it on paper in the aircraft, either on the sign-in sheet for small things, like tightening interior panel screws, OR the Squawk Sheet for anything else.

2. Enter it in Flight Circle: Manage > Aircraft > Squawks > Create Discrepancy **OR** when checking in a flight ... go to the schedule, click on the reservation, Check in > Squawks tab > New Squawk.
3. Notify Dan Macdonald by text or phone call.

Coronavirus Protocols:

Should you decide to take one of our airplanes to go flying, please be sure to remember to **disinfect the cabin and controls as outlined in your confirmation email from Flight Circle**. Charlie has supplied each airplane with gloves, but bring your own disinfectant, being sure NOT to use chlorine-based cleaners on the delicate avionics.

Safety Pilots: Members who are anxious to keep their skills, and yours, sharp!

Joel D'Angelo	dangelojoel@gmail.com	203-631-1098
Dan Macdonald	Dmac936@gmail.com	203-788-6320
Josh Snow	joshua.r.snow@medtronic.com	203-804-4845
Laura Baldwin	lfbaldwin@aol.com	203-517-5409
Paul Cleary	paul.cleary@yale.edu	203-415-2402
Auguste Fortin	auguste.fortin@yale.edu	203-464-2683
David Willmore	davidwillmore@mac.com	703-269-8197

... & PLANES

HOW WE TREAT OUR AIRPLANES! When you arrive at the airport, you should expect the aircraft to be in good condition. If the aircraft is not up to this standard, please let maintenance officer **Dan Macdonald (203-788-6320)** know so he can improve matters.

Remember:

- **NO METAL OBJECTS ON THE GLARE SHIELDS!** Headsets, lap boards - as tempting as it is, they can scratch the plexiglass, so please find another spot to keep these objects while doing preflight!
- **TAKE OUT THE TRASH!** Please be sure any spare paper, charts, etc are removed after your flight.
- **CAREFUL WITH THE BRAKES!!** We have had 5 tire changes in the last year, with "flat spots" often seen on the tires of both airplanes. This is most commonly caused by *landing while holding the brakes* or braking too hard to make the first turn off the runway. PLEASE, be kind to the tires, and watch how you are using the brakes.
- **CAREFUL WITH HOLDING RIGHT RUDDER TOEBRAKE on TAKEOFF!** Both airplanes have shown unusual wear on the right brake rotor, possibly from pilots holding the right toe brake a bit as they start their takeoff roll. Heels on the floor, and no toes on the brakes!!
- **Tied down securely, with proper knots, taut lines, and no spare length of rope that can whip around in the wind.** Please ask if you need a demo or some practice in this vital area for airplane security.
- **Gust lock is in position, window closed, aircraft locked (both baggage compartment AND door), COVER ON!**
- ALL instruments turned off –*particularly important for doing the hot mag check at shut-down*, since an unexpected electrical surge could fry delicate avionics equipment left on!
- **Our chief pilot wants to be sure he knows of ALL discrepancies**, no matter how minor they may seem. Please be sure to enter such squawks on the clipboard, on FC, and to text or call **Dan Macdonald!**

Be sure to leave our airplanes secure and clean – just like YOU would like to find them!

32028 is A-OK, with 22 hours until its next oil change.

55044 is also A-OK, with 30 hours until its next oil change.

Also please remember that this new engine system has replaced one of the traditional magnetos with an **electronic magneto** which ALWAYS needs at least 8.5 volts of power from the alternator or battery in order to function. For that reason, do NOT continue to operate the airplane if the alternator is offline. Unlike with two traditional magnetos, **the functioning of this engine is not entirely independent from the electrical system**. The efficiency and reliability of the spark is worth this operational change!

ALSO NOTE for 55044:

1. We must be vigilant at keeping water out. **Please, always use the airplane cover when you know it will be raining, as this will really help!** If the weather is sunny or it is summertime, then **having the cover off** is preferred. When in doubt, put the cover on!
2. Remember: **you MUST have two (2) people to remove the cowling**. Scrapes and chips can easily occur, and this is most probable when you try to remove the cowling with one person only!
3. The seat-back covers (those “caps” that slip over the top of the seat to prevent wear on the fabric) should be in place when you leave the airplane.

Updating our Garmin databases –

Remember when you turn on the avionics in our airplanes to always hit the “update” softkey on the Garmins to be sure that the databases are always updated.

A few tips/reminders for using Flight Circle, our online scheduling and billing system:

- If the Hobbs number is changing, **PLEASE use the number it is changing to** in your calculations. More flight time in your logbook! This is a club policy – ANY part of a number showing means that number should be used!
- If your preferred time-slot is not available, we encourage you to make a **BACKUP reservation** instead of a PRIMARY one – there is a pull-down menu for “Reservation Type” to change this selection. You will get an email or text notification if your reserved time comes free.
- Dispatch your flight **before/during the pre-flight**, and check it back in upon returning. Once checked in, your reservation will be grayed out, which will allow other members to reserve the airplane, ***even if you reserved the airplane for more time.***

Auto-Schedule monthly payments on your account for your convenience and ours!

If you have any questions or problems, please contact our Billing Officer **Josh Snow**, Joshua.r.snow@medtronic.com or call/text him at 203-804-4845. You can also contact **Laura Baldwin** lfbaldwin@aol.com or **Jake White** jake.white+ya@gmail.com.

Those of you who've accumulated more hours than you might likely fly please consider donating to the club – it is tax deductible!! **Help keep Yale Aviation alive in the future as it was for you!**

AVIATION EDUCATION & NEWS

AOPA has a pinch-hitter course with the basics of flying for your non-pilot companions. Check it out: <https://www.aopa.org/training-and-safety/online-learning/safety-spotlights/pinch-hitter>

Sporty's has developed a series of advanced pilot videos with acrobatic pilot & CFI Stephen Suderman:

"After-Market Safety Equipment"

Topic: It's now easier to add after-market safety devices like AoA indicators, engine monitors, and enhanced/synthetic vision systems

On Tuesday, June 21, 2022 at 19:00 Eastern Daylight Time (16:00 PDT; 17:00 MDT; 18:00 CDT; 13:00 HST; 15:00 AKDT; 16:00 Arizona; 23:00 GMT)

Select Number: EA07113031

Description:

- A number of technologies have proven useful in reducing the likelihood of general aviation accidents.
- As with all technologies, pilots must be thoroughly familiar with limitations and proper operation of the equipment.
- FAA recognizes that reducing regulatory burden can result in increased safety equipment installation and use.
- Pilot proficiency is still the most profound influence on flight safety.

"Meriden Pilot Proficiency Network Meeting for JUNE 2022"

Topic: Mastering the Art of Instrument Navigation and Instrument Training. (Scenarios and Discussion)

On Tuesday, June 28, 2022 at 18:00 Eastern Daylight Time

Location:

Meriden Airport
213 Evansville Ave
Meeting Room, Airport Terminal
Meriden, CT 06450

Select Number:

EA63113225

Description:

WE'RE BACK! Live and In-person. Please come to the **JUNE**, meeting of the **PILOT PROFICIENCY NETWORK**, We have another instrument scenario along with real time Weather to engage our members, and allow them to share and build upon their own experiences. You do not have to be instrument rated to attend! We begin our meeting with the Question of the Month. Following the presentation, we will conclude with the question, "What would you do?". Refreshments will be served. Click the link below and register today!

Podcast & Apps & Gadgets –

Hangar Talk

Hear the story behind the story from incredible pilots, policy makers, and the people who make flying great.

<https://www.aopa.org/news-and-media/podcasts/podcasts/hangar-talk>

TWEED NEWS -

NOISE ABATEMENT PROCEDURES: The Tweed-New Haven Airport is bounded to the West and East by suburban communities and to the South by sensitive wetlands. Please adhere to the following procedures to help us be the best neighbors and stewards of the land as possible:

- Departing Runway 20, fly runway heading until crossing the shoreline before making any turns.
- Departing Runway 2, fly runway heading to 1,000 feet before making any turns.
- No touch-and-goes late at night or early morning (ie from 2200 local to 0700 local, 0800 local on Sundays).

Keep in mind that fuel is cheaper at Robinson on the weekends. Be sure to ask for a top-off after your flight if it is on a Saturday or Sunday!!

TSA Badges –

If you are checked out to be PIC of one of our airplanes, you will need a TSA security badge for KHVN to access the aircraft. To obtain one you must

1. Have a completed application signed by our TSA signatory, **Laura Baldwin** (203-966-8499, lfaldwin@aol.com). For that signature she needs to see two forms of ID (passport and driver's license work really well) - **AT LEAST ONE NEEDS TO BE A PASSPORT, SOCIAL SECURITY CARD OR BIRTH CERTIFICATE.**
2. With the above completed, contact **Garrett Kimball** at the Badging Office at security@flytweed.com or 203-466-8833 ext 1004 to have your fingerprints taken and organize training. Their office is located on the first floor of the arrivals terminal, and Garrett is available M-F 9:00-15:30. **Please make an appointment first!**
3. New badges are \$50 (check made out to "HVN") and renewals are \$30, which we need to do every other year in September. Be sure to have your old badge with you, plus the two forms of government issued ID you showed to Laura.

If someone isn't compliant their badge will be disabled, and they will have to attend a training class to have it re-enabled and usable. **Tweed is becoming quite serious about everyone having and using their security badge** – pilots without badges will be escorted from the airport and will not be able to fly!!!

A message from Garrett Kimball of The New HVN – Tweed New Haven Airport:

The SIDA (Security Identification Display Area) Badge is required for all persons who have an operational need to access the secured areas surrounding the commercial passenger terminals, Airport Operations Areas (AOA), and sterile areas. This badge is primarily issued to airline personnel, TSA officers, airport staff, and those needing to access the AOA. SIDA badge applicants must pass a Security Threat Assessment (STA) and a fingerprint-based Criminal History Records Check (CHRC), along with SIDA training.

The first step in attaining a Tweed HVN SIDA Badge is to bring your completed Airport Security Badging Application to the badging and security office at Tweed for fingerprinting and security/driver training. Our office is currently located on the first floor of the Arrivals terminal. We are available M-F 09:00 to 15:30 and the whole process takes about 1.5 hours. Please bring two forms of ID off of the I9 form (e.g., driver's license AND passport, social security card, or birth certificate). Once all training exams are completed satisfactorily and we receive a "pass" from our security threat assessment, ID badges can be issued. We look forward to seeing you at The New HVN.

ONLINE -

Yale Aviation is on Facebook - be sure to post photos, ask questions of fellow pilots, encourage those who are working their way through ratings and exams, or see if you can organize a passenger on your next flight. We have opened this group so that your friends (and prospective members?) can see what we are all about.

Remember pictures can also be posted on our Yale Aviation website at www.YaleAviation.org. **Tom Sobocinski**, our Webmaster, has updated the site to include a gallery of names and faces, current Newsletters and the full 12-part Yale Aviation, Inc History by **Hank Galpin**. Check it out!!! (Suggestions for further revisions welcome)

IF YOU DON'T LIKE YOUR PICTURE ONLINE, PLEASE SEND ME A BETTER ONE!

YA MERCHANDISE! Check out our two online “storefronts” for purchasing YA-logoed merchandise! One is at located at Customized Girl

(<http://www.customizedgirl.com/s/yaleaviationmerch>) and one at Zazzle (<https://www.zazzle.com/s/yale+aviation>). Zazzle in particular has some new items (cell phone grips, ornaments, bag tags) which should go online by the end of the weekend or next week, so check it out! What you order from these locations will be delivered directly to you, PLUS a portion of the sales will come back to the club.

Contact Laura Baldwin (lfbaldwin@aol.com) if you have any questions or have ideas for additional merchandise!

We take part in **Sporty's Flying Club Rebate Program** which means we will receive cash back for our club on all your purchases from Sporty's. Every time you make a regular purchase – either online, at 800.SPORTYS, or in their store – we will receive a 5% cash rebate, using your email to link these purchases to our club.

Of course, this program is a great way for Sporty's to steer business their way, but we have an opportunity to also reap the benefit. With your participation, this will be a win-win for all of us. Go to sportys.com or call 800-SPORTYS – no special

code needed.

If you have a friend or family member who buys presents for you, be sure to let me know so I can get them added to our club list. Anyone who is NOT on that list will not get us our rebate, even if they are buying for someone on the list!!

SIMULATOR(S) -

New Simulator Ready for Action!

YA is glad to announce that our simulator has been upgraded and relocated to New Haven Aviation Center -- the HVN-based flight school!

The new model was generously donated by **Jay Leboff**, who founded and runs STEMPilot, a Waterbury company dedicated to teaching math and science through the excitement of aviation.

The system uses Lockheed Martin Prepar3D software and hardware, including a yoke and rudder pedals together with a switch panel, radio panels, an autopilot panel and a multipurpose display.

New Haven Aviation Center has agreed to host the YA simulator in the

classroom space of their offices at Robinson Aviation. To book the simulator, call or text Laura Baldwin (203-517-5409) or Jake White (203-668-7655).

Loggable AATD Simulator Installed at 3Wing Aviation!

The folks at 3Wing Aviation at KBDR have a **Precision Flight Control** flight simulator available for use that is qualified to log approaches and conduct training. It is open to both 3Wing members and the public. Rates are \$99 per hour for non-Club members (instruction is extra), and time can be scheduled by calling 3Wing at 203-375-5795. The initial flight needs an instructor to explain the setup – **Laura Baldwin** (lfaldwin@aol.com) is such an instructor, qualified with 3Wing. Let her know if you have any questions or want to schedule a flight!

how planes fly
