

# YALE AVIATION NEWSLETTER

June 2024

## UPCOMING EVENTS

- **Soaring** – Tuesday July 2, 6 pm ZOOM meeting led by our very own **Josh Snow**. Josh and his son, Trevor, recently joined the CT Soaring Association which flies out of the Windham Airport (KIJD). Trevor is really interested in aviation, and since Josh got his start in gliders, both thought this was a great way for Trevor to get started too (you can solo at 14 in a glider). Josh will present about his time flying and teaching in the glider program at the US Air Force Academy, what it takes for power pilots to earn a glider license, what a typical flight looks like, and how you can give it a try. We hope you can join! Details & separate invitation to follow.

- **Tweed ATC Open House** – July 9, 6:30 pm. Details TBD.
- **CT Air & Space Center Helicopter Day** – Saturday July 13, 10 am to 4 pm, 225B Main St, Stratford, CT. More helicopters than last year, and they will have a flying Bell 47 raffling off 10 flights throughout the day. More information & ticket pricing [HERE](#).

**Yale Aviation Birthday Bash** – September 7, 6 to 9 pm. Celebrating 60 years of aviation education.

There will be games, there will be a silent auction, there will be a toast to our long-standing Chief Pilot Col. Charles A. Skelton. **Save the date...** and please let us know if you have something neat you can donate for the auction, or if you would like to join Ty Kamp and Laura Baldwin on the Steering Committee!

## PILOTS...

### Summer SOPs:

As the members know already, N6297J is having its engine rebuilt. This process will take several months - we will keep everyone aware of any changes in timeline. This means, however, that we have only one airplane available this summer. For the convenience of everyone we ask that you please:

- cancel in a timely fashion if your plans change
- make backup reservations, since you never know if N55044 will come free at the last minute!

Backup reservations are made in Flight Circle by making the reservation for the hours you wish. If there is a conflict, FC will prompt you to make a backup reservation. If you agree, FC will then notify you by email if your reservation time comes free.

If you need to cancel your reservation, please try to call the person that has a backup reservation. Their phone number can be seen if you hover over their reservation.

With only one airplane over this summer, we will need everyone to be conscientious about their use of our limited resource.

---

We have several interesting opportunities we are working on for this summer in the interest of aviation education. Keep your eye out for the following:

- **Upset Training** – using a Decathlon out of Brainard, the club is organizing a Saturday or Sunday of flights that would explore what it is like at the edges of the envelope – and how to recover. Details to follow.
- **Bradley TRACON Tour** – see how we get controlled when flying from KHVN to Barnes (for example).

---

**Safety Pilots:** Below are listed members who are anxious to keep their skills, and yours, sharp!

Joel D'Angelo	<a href="mailto:dangelojoel@gmail.com">dangelojoel@gmail.com</a>	203-631-1098
Dan Macdonald	<a href="mailto:Dmac936@gmail.com">Dmac936@gmail.com</a>	203-788-6320

# A Message from Goodspeed Airport

I'm writing a quick note to ask that we all try to blend a bit better in the community. The airport has been getting a lot of noise complaints from the residents up on the ridge to the east. There are many homes that are right on the downwind for Rnwy 14. If you line up on the 2nd electrical tower for your downwind, you're going right over some homes w/an MSL elevation of about 200'.

I'm not asking anyone to do anything unsafe. If you're comfortable doing so, please try to swing your downwind for landing 14 a bit more to the east. and I think that will help.

Also, please remember our ask to remain over the river as long as practicable to 1000' before turning. Always fly a left pattern!

If you can spread the word, that would be helpful. Any questions, please let me know. I know I'll make a more concerted effort when I run into visitors on the ramp.

Thanks,  
Bill McEnery  
New England Airport Associates

**Prepare for your Flight Review!** Check out this link for information on AOPA's Focused Flight Review Program: <https://www.aopa.org/training-and-safety/active-pilots/focused-flight-review>

Those of you who've accumulated more hours than you might likely fly please consider donating to the club – it is tax deductible!!

**Help keep Yale Aviation alive in the future as it was for you!**

## ... & PLANES

**6297J** is grounded after significant metal was found in the oil filter and suction screen after its latest oil change. In addition, cracking was noted in the three cylinders NOT replaced last spring. The engine is being rebuilt at Penn Yan in New York, and we are taking this opportunity to deal with a few other items difficult to address unless the engine is out, such as the engine mount.

### Remember:

- This aircraft has ADS-B out (*NOT in, though*) which means you might want to fly with your iPad connected to the Stratus2 in the airplane for traffic awareness.
- The locks for this aircraft are touchy, especially the baggage key, which is the one with the red plastic sleeve. It will go in both right-side up AND upside down – flip it around if you find that some gentle jiggling doesn't result in a closed baggage door.

## We have gathered a few online videos to help with orientation for the avionics in 6297J:

Sporty's G500 overview: <https://www.youtube.com/watch?v=6AFqG5RunA>

Sporty's sponsored Garmin webinar (2-3-2021) GFC 500 autopilot:  
<https://www.youtube.com/watch?v=g4YGFbYhoMk>

Garmin webinar (Apr 2020) on G500 (more emphasis on G5 interface):  
<https://www.youtube.com/watch?v=nQMWC5Aq1JM>

Garmin430: <https://www.youtube.com/watch?v=RRU8vVle-cQ>

Mike Jesch Garmin 430 tutorials: <https://www.youtube.com/watch?v=vdXQkNg5ho4>

JPI 830 Engine Monitor Overview: <https://www.youtube.com/watch?v=QrLXysEBW5A>;  
<https://www.youtube.com/watch?v=a8P15IPU9bc>

Leaning with the JPI 830, setting fuel flow usage, and alarms: [https://www.youtube.com/watch?v=U\\_yWDBfptCc](https://www.youtube.com/watch?v=U_yWDBfptCc)

**N55044** is undergoing its 100hr inspection, where it will have its failing vacuum pump replaced as well as have work done on the carb heat and prop bulkhead.

***Please be sure to be careful with landings – remember you can always go around!***

Remember that 55044 has one electronic magneto which ALWAYS needs at least 8.5 volts of power from the alternator or battery in order to function. For that reason, do NOT continue to operate the airplane if the alternator is offline. Unlike with two traditional magnetos, the functioning of this engine is not entirely independent of the electrical system. The efficiency and reliability of the spark is worth this operational change, however.

**Updating our Garmin databases** - When you turn on the avionics in N55044 to always hit the "update" softkey on the GTN650 unit to be sure that the databases are always updated.

Also, please do the VOR check any time you fly. We still need this check every 30 days in case there is a GPS outage when flying IFR. Do this for your fellow pilots!

**HOW WE TREAT OUR AIRPLANES!** When you arrive at the airport, you should expect the aircraft to be in good condition. If the aircraft is not up to this standard, please let maintenance officer **Dan Macdonald (203-788-6320)** know so he can improve matters.

### **AIRPLANE NOTES:**

- Remember: **you MUST have two (2) people** to remove the cowling on 55044 or 6297J. Scrapes and chips can easily occur, and this is most probable when you try to remove the cowling by yourself.
- **NO METAL OBJECTS ON THE GLARE SHIELDS!** Headsets, lap boards - as tempting as it is, they can scratch the plexiglass, so please find another spot to keep these objects while doing preflight.
- Add a couple ounces of Camguard when you add a quart of oil!
- ALL instruments turned off when manipulating the Master switch – ***particularly important for doing the hot mag check at shut-down,***

since an unexpected electrical surge could fry delicate avionics equipment left on.

- **CAREFUL WITH THE BRAKES, ESPECIALLY THE RIGHT RUDDER TOE-BRAKE!!** We are seeing “flat spots” often seen on the tires of both airplanes, in particular the right tire. This is most commonly caused by *landing while holding the brakes* or braking too hard to make the first turn off the runway. OR possibly pilots are holding the right toe-brake a bit as they start their takeoff roll. *Heels on the floor, and no toes on the brakes!!*
- **TAKE OUT THE TRASH!** Please be sure any spare paper, charts, etc are removed after your flight.
- **Gust lock is in position, window closed, aircraft locked (both baggage compartment AND door), COVER ON!** Due to construction at the airport, **please use the airplane covers always**, unless you SEE another member using the airplane after you.
- **Tie down airplanes securely, with proper knots, taut lines, and no spare length of rope that can whip around in the wind.** Please ask if you need a demo or some practice in this vital area of airplane security.

***Be sure to leave our airplanes secure and clean*** – just like YOU would like to find them!

### Notices to our aviators – Maintenance Squawks:

**Dan Macdonald** (cell: 203-788-6320) is the primary point of contact for airplane maintenance issues. A Maintenance Committee has been formed that consists of **Dan, Joel D’Angelo, Akihiro Hashimoto** and **Jake White**, who will work together to resolve issues with the airplanes. **Please text Dan if you note something amiss – no discrepancy is too small!**

If you note a discrepancy with one of our aircraft please be sure to complete this **three-step process**:

1. **Enter it on paper in the aircraft**, making a short note or comment. You can include more detail on FC.
2. **Enter it in Flight Circle**: Manage > Aircraft > Squawks > Create Discrepancy **OR** when checking in a flight ... go to the schedule, click on the reservation, Check in > Squawks tab > New Squawk.
3. **Notify Dan Macdonald** by text or phone call.

### A few tips/reminders for using Flight Circle, our online scheduling and billing system:

- If the Hobbs number is changing, **PLEASE use the number it is changing to** in your calculations. More flight time in your logbook! This is a club policy – ANY part of a number showing means that number should be used!
- If your preferred time-slot is not available, we encourage you to make a **BACKUP reservation** instead of a PRIMARY one – there is a pull-down menu for “Reservation Type” to change this selection. You will get an email or text notification if your reserved time comes free.
- Dispatch your flight **before/during the pre-flight**, and check it back in upon returning. Once checked in, your reservation will be grayed out, which will allow other members to reserve the airplane, ***even if you reserved the airplane for more time.***

**Auto-Schedule monthly payments on your account for your convenience and ours!**

If you have any questions or problems, please contact our Billing Officer **Josh Snow**, [Joshua.r.snow@medtronic.com](mailto:Joshua.r.snow@medtronic.com) or call/text him at 203-804-4845. You can also contact **Laura Baldwin** [secretary@yaleaviation.org](mailto:secretary@yaleaviation.org) or **Paul McGhee** [president@yaleaviation.org](mailto:president@yaleaviation.org).

## AVIATION EDUCATION & NEWS

### **AOPA Rusty Pilot Series**

Want to refresh your aviation skills? Check out these AOPA Rusty Pilot series youtube videos.

[https://www.youtube.com/playlist?list=PLQCVVyDYKyo3K\\_AbIL\\_6Xvx0EZJNLgqjr0](https://www.youtube.com/playlist?list=PLQCVVyDYKyo3K_AbIL_6Xvx0EZJNLgqjr0)

---

### **Gary Powers Jr.**

Saturday, June 22nd, 10AM at NEAM

Join them for a special lecture given by Gary Powers Jr. on the Cold War and U2 Incident. Powers a Cold War historian and the son of Gary Powers, Sr. the U-2 pilot whose plane was shot down over the Soviet Union in 1960. Click [HERE](#) for tickets.

---

### **"MERIDEN IMC Club Monthly Meeting at KMMK"**

Topic: 'Managing Unstable RPM'

On Tuesday, June 25, 2024 at 18:00 Eastern Daylight Time

Location:

Meriden Airport-KMMK

213 Evansville Ave

Meeting Room, Airport Terminal

Meriden, CT 06451

### **Select Number:**

EA63130775

### **Description:**

At our **JUNE, 2024** meeting we will be looking into how to handle an unstable RPM situation that starts to develop mid way during a practice instrument training flight occurring in both IMC and VMC conditions.

Following the presentation, we will conclude with the question, "What would you do?". Refreshments will be served. Click the link below and register today!

Our question of the month will cover the causes of somatogravic illusion.

To view further details and registration information for this seminar, [click here](#).

The sponsor for this seminar is: **FAA Safety Team and the Bradley FSDO**

---

### **"IMC/VMC Club Meeting to Discuss IMC/VMC Scenarios Based on Actual Member Experience"**

Topic: A dialogue on actual IMC situations experienced by instrument pilots, which will be discussed with the participants,

On Tuesday, June 25, 2024 at 19:00 Eastern Daylight Time (16:00 PDT; 17:00 MDT; 18:00 CDT; 13:00 HST; 15:00 AKDT; 16:00 Arizona; 23:00 GMT)

### **Select Number:**

EA25130360

**Description:** Designed for both IFR and VFR Pilots interested in becoming Instrument Rated.

Based on in-flight experiences of IFR and VFR Pilots in varying weather conditions, from hard IFR to MVFR.

Includes numerous IMC/VMC flight experiences collected by the Experimental Aircraft Association.

Regular monthly webinar/zoom meetings will be conducted in conformance to with Federal and State health requirements.

To view further details and registration information for this webinar, [click here](#).

The sponsor for this seminar is: **FAAsteam**

The following credit(s) are available for the WINGS/AMT Programs:

Advanced Knowledge 1 - 1 Credit

---

## Podcasts & Apps & Gadgets –

A pretty heart-stopping video of a successful crash landing in Australia. This is what we train for!

<https://www.youtube.com/watch?v=U XaimUKF68>

## TWEED NEWS -

**NOISE ABATEMENT PROCEDURES:** The Tweed-New Haven Airport is bounded to the West and East by suburban communities and to the South by sensitive wetlands. Please adhere to the following procedures to help us be the best neighbors and stewards of the land as possible:

- Departing Runway 20, fly runway heading until crossing the shoreline before making any turns.
- Departing Runway 2, fly runway heading to 1,000 feet before making any turns.
- No touch-and-goes late at night or early morning (ie from 2200 local to 0700 local, 0800 local on Sundays).

---

## TSA Badges –

If you are checked out to be PIC of one of our airplanes, you will need a SIDA security badge for KHVN to access the aircraft.

The good news is that this process can now be done mostly online using Tweed's new SIDA badging application system! Applicants will be able to submit their badging applications, IDs/documentation, and testing materials conveniently online through a new platform on Veoci. This user-friendly system is designed to streamline the badging process, making it easier and more efficient for everyone involved.

To access the new online application portal, please click [here](#), then click on the red tab to start a new application. The next page will give you the option for a new badge or renewal. Follow the online instructions. You will need to upload two forms of ID (passport and driver's license work really well) - **AT LEAST ONE NEEDS TO BE A PASSPORT, SOCIAL SECURITY CARD OR BIRTH CERTIFICATE.**

If you have any questions please fill out a Request for Help form [HERE](#), or reach out to one of our two TSA signatories, who will virtually sign your application once it is complete:

1. **Laura Baldwin** (203-517-5409, [lfbaldwin@aol.com](mailto:lfbaldwin@aol.com))
2. **Santo Galatioto** (203-710-2730, [santoyale@gmail.com](mailto:santoyale@gmail.com)).

With the above completed, **Garrett Kimball** at the Badging Office ([gkimball@avports.com](mailto:gkimball@avports.com) or 203-466-8833 ext 1004) will need to take your fingerprints and photo. His office is located on the first floor of the arrivals terminal, and he is generally available T, W, Th 9:30am-3pm.

Once security receives a "pass" from the security threat assessment, ID badges can be issued.

New badges are \$75 (card payment only) and renewals BEFORE THE OLD CARD IS EXPIRED are \$50, which we need to do every other year in September. Be sure to have your old badge with you, plus the two forms of government issued ID you used for your application.

If someone isn't compliant their badge will be disabled, and they will have to attend a training class to have it re-enabled and usable. **Tweed is quite serious about everyone having and using their security badge** – pilots without badges will be escorted from the airport and will not be able to fly!!!

## ONLINE -

**Yale Aviation** is on Facebook - be sure to post photos, ask questions of fellow pilots, encourage those who are working their way through ratings and exams, or see if you can organize a passenger on your next flight. We have opened this group so that your friends (and prospective members?) can see what we are all about.

Remember pictures can also be posted on our Yale Aviation website at [www.YaleAviation.org](http://www.YaleAviation.org). **Tom Sobocinski**, our Webmaster, has updated the site to include a gallery of names and faces, current Newsletters and the full 12-part Yale Aviation, Inc History by **Hank Galpin**. Check it out!!! (Suggestions for further revisions welcome)

**YA MERCHANDISE!** Check out our two online “storefronts” for purchasing YA-logoed merchandise! One is at located at Customized Girl (<http://www.customizedgirl.com/s/yaleaviationmerch>) and one at Zazzle (<https://www.zazzle.com/s/yale+aviation>). Zazzle in particular has some new items (cell phone grips, ornaments, bag tags), so check it out!

What you order from these locations will be delivered directly to you, PLUS a portion of the sales will come back to the club.

Contact Laura Baldwin ([lfbaldwin@aol.com](mailto:lfbaldwin@aol.com)) if you have any questions or have ideas for additional merchandise!

We take part in **Sporty's Flying Club Rebate Program** which means we will receive cash back for our club on all your purchases from Sporty's. Every time you make a regular purchase – either online, at 800.SPORTYS, or in their store – we will receive a 5% cash rebate, using your email to link these purchases to our club. Of course, this program is a great way for Sporty's to steer business their way, but we have an opportunity to also reap the benefit. With your participation, this will be a win-win for all of us. Go to [sportys.com](http://sportys.com) or call 800-SPORTYS – no special code needed. **If you have a friend or family member who buys presents for you, be sure to let me know so I can get them added to our club list. Anyone who is NOT on that list will not get us our rebate, even if they are buying for someone on the list!!**

## SIMULATOR(S) -

Our simulator has been upgraded and relocated to New Haven Aviation Center -- the HVN-based flight school! The new model was generously donated by **Jay Leboff**, who founded and runs STEMPilot, a Waterbury company dedicated to teaching math and science through the excitement of aviation.

The system uses Lockheed Martin Prepar3D software and Logitech hardware, including a yoke and rudder pedals together with a switch panel, radio panels, an autopilot panel and a multipurpose display.

New Haven Aviation Center has agreed to host the YA simulator in the classroom space of their offices at Robinson Aviation. **To book the simulator, call or text Laura Baldwin (203-517-5409) or Jake White (203-668-7655) for access.**

### Loggable AATD Simulator Installed at 3Wing Aviation!

The folks at 3Wing Aviation at KBDR have a **Precision Flight Control** flight simulator available for use that is qualified to log approaches and conduct training. It is open to both 3Wing members and the public. Rates are \$99 per hour for non-Club members (instruction is extra), and time can be scheduled by calling 3Wing at 203-375-5795. The initial flight needs an instructor to explain the setup – **Laura Baldwin** ([lfbaldwin@aol.com](mailto:lfbaldwin@aol.com)) is such an instructor, qualified with 3Wing. Let her know if you have any questions or want to schedule a flight!

### Redbird LD Sim at KMMK!

Fully loggable at \$80/hr.

Contact Meriden Aviation Center 203-648-4870 to schedule some time.

WIZARD OF ID

BY MASON MASTROIANNI AND MICK MASTROIANNI

The Yale Aviation Newsletter goes out to the membership on the 15<sup>th</sup> of every month. Please let me know if you have any news, suggestions, or comments:

[Secretary@yaleaviation.org](mailto:Secretary@yaleaviation.org)

Laura Baldwin, Secretary
